GIVE FULL REPORT  
TO PLANNING BOARD  
BECAUSE THIS WOULD  
BE FOR A SUBDIVISION.

Dear Mr. Fiegenbaum;

On this date I witnessed 2 additional test pits for a proposed residential subdivision. There was about 1.5 feet of snow on the ground when this work was done. The designer representing the owner was Wayne Morrill of Jones and Beach Engineers.

The following features were observed:

Test Pit	Seasonal High Water Table	Bedrock	Total Depth	Pass/Fail
M11	34"	no	68"	pass
M12	29"	no	65"	pass

**Both of today's test pits meet town and state soil requirements for wastewater disposal.**

Whether the test pits meet setback requirements and the acceptability of the 4,000 square foot reserve area can be determined after the test pits are survey located and presented on the subdivision plan.

A test pit field summary is attached.

Sincerely,

Michael Cuomo  
NH Certified Soil Scientist #6  
NH Certified Wetland Scientist #4  
NH Designer #788
