RCCD #MA5-8-L15

Dear Mr. Fiegenbaum;

On this date I witnessed 2 additional test pits for a proposed residential subdivision. The designer representing the owner was Wayne Morrill of Jones and Beach Engineers.

The following features were observed:

Test Pit	Seasonal High Water Table	Bedrock	Total Depth	Pass/Fail
M13	36"	no	63"	pass
M14	28"	no	64"	pass

Both of today's test pits meet town and state *soil* requirements for wastewater disposal. Whether the test pits meet setback requirements and the acceptability of the 4,000 square foot reserve area can be determined after the test pits are survey located and presented on the subdivision plan.

A test pit field summary is attached.

Sincerely,

Michael Cuomo
NH Certified Soil Scientist #6
NH Certified Wetland Scientist #4
NH Designer #788

Leonard A. Lord
District Manager

The mission of the Rockingham County Conservation District is to conserve and sustain the natural environment for present and future generations by working to make wise land-use decisions.
