

Hi Fritz,

I hope this finds you well. I am reaching out because we are looking at doing a small bump-out addition for my office at 314 Route 108. In order to do this addition, do I need to present this revised site plan to the Planning Board and / or zoning?

Also, I would like to introduce you to Clay Mitchell. Clay is my business partner at Revolution Energy and a good friend. He has extensive experience in town planning. Currently, I find myself very busy with the other aspects of the business and I have decided to reach out for help with the planning process. I know that Clay is much more efficient at this process.

Brian Hamor, my brother and architect for the project, is also CC'ed on this email. I have included the two concepts that his office has put together. The design may change, but it's a start. The space is small, but will work for my needs.

I look forward to taking the next steps.

~ Sarah

Hello

I wanted to send you over the possible additions in the context of the site plan. We were not sure which you would prefer so we sent two options. One shows the walls inside the addition and the second just shows the outline. Let me know your thoughts.

Thanks

Lauren
