

*[re: publish vs post]*

Fritz: Assuming you're looking for my 2 cents also ...

I think you're right, so long as your local sub-div regulations don't require both posting AND publication. The statute say "posting or publication as required by the sub-division regulations."

I took a look at regs in my binder. Only pertinent section seems to be Section 9 ... which references what's "required" which I interpret to mean by statute. No local requirement to do both.

Has the PI Bd ever adopted "Rules" that are not published/included in the green binder of ordinances/regulations you've given to me (and which I understand are available to public)? If so:

1. Check those too, just to be sure (statute doBd to adopt Rules, but it may, and if there are Rules and both posting and publication is required, do both ... but feel free to consider amending Rules as a PI Bd action to only require what statute requires
2. Send me a copy (of Rules if any)

Chris
