

Hi Fritz,

Could you provide for 20 minutes on your November or December planning board meeting for a pair of UNH students from the Planning Club to learn about your board's needs for training and information?

I'm arranging for students to visit a small number of boards prior to launching the New Hampshire Citizen Planner (www.nhcitizenplanner.org) needs survey to Strafford County. The students will come with three questions for the board about the big planning topics they are facing, where the boards are currently going for information, and barriers to attending training.

I hope that they can fit into your agenda, please let me know.

Thanks,

Chris Keeley
